All transient advertisements must be paid for in advance, in United States coin. Monthly advertisements payable at the end of the month.

### THE WORKINGMEN'S PARTY.

The Virginia Footlight grows enthusiastic over the outlook for the Workingmen's party, now becoming such a power throughout the country. It says:

He who can read aright the signs of the times is a wise man. He fails to recognize in the disturbed relations of capital and labor, which exists throughout our country, the indications of a coming storm is willfully blind. Newspapers, owned by corporations and by rich men, may sneer at workingmen's movements, and affect to see in the dark cloud which is rapidly overshadowing the land, nothing but the insane ravings of a few communists; yet to the careful unbiased observer, the signs of the times are fearfully ominous and portent of danger greater than the earthquake's shock, or the outburst of the volcano's fire. By the aid of the unjust incorporation laws of many of our States, capital has been so greatly concentrated in the hands of the few, that poor men are rapidly becoming but little better than mere vassals and slaves of the rich. By the wealth obtained by fraud, under cover of unjust laws, these dishonest rich men are enabled to corrupt the very fountains of justice, and by means of venal courts and purchased legislators, bind still tighter the chains of the poor. But, thanks to our free press and to our public schools, poor men have had their intellectual faculties so developed and sharpened, that they are fast awakening to the impending danger, and are beginning to confront, on every occasion, their would-be masters with a demand for their in-born rights. In the workingmen's movements, of the Eastern States and of California, may be seen the commencement of a warfare which will not cease till the laws of our land are so framed, that it will be impossible for a money oligarchy to exist within the length and breadth of these United States. It avails little, for the opponents of the workingmen's party to say that this leader of the party uses intemperate language, and that other leaders are over zealous in the cause. All reforms and all revolutions have been inaugurated by enthusiasts. Samuel Adams and John Hancock, and Joseph Warren and Patrick Henry, all of revolutionary fame, used intemperate language, and a price was set upon the heads of some, by George III., for the use of this kind of language. Still the revolution was brought to a successful issue, and the colonies became free and independent States. William Lloyd Garrison, the great anti-slavery agitator, was an enthusiast, and in consequence of intemperate language, was dragged through the streets of Boston with a rope around his neck. But time saw human slavery abolished, and Garrison still lives. John Brown was an enthusiast, and for the use of intemperate language, and for illegal acts, lost his life in the cause which he espoused, but "his soul goes marching on." Galileo and Bruno were enthusiasts, and the latter lost his life because he had used intemperate language. But the doctrine of the plurality of worlds was at last acknowledged to be true by the great power which had persecuted them. John Bunyan was an enthusiast, and Wilberforce was an enthusiast. Had no enthusiast ever lived, and no one ever been guilty of the use of intemperate language, the world to day would have been slumbering under the dark shadow of barbarism and moral night. Kearney may be a rude, uncultivated fanatic; other leaders of the workingmen's movement may be impracticable zealots, but the cause which they have espoused will ultimately triumph, for its principles are based on human rights. Let those who are compelled to obey the behests of rich corporations be conservatives. The Tories of the revolution were conservatives also. Let those who stifle all the nobler sentiments of their nature, that they may obtain the praises of some shoddy millionaire, be conservatives, but for us when a thousand poor men are ground to the dust that one dishon-

est rich man may strut and swell, we'll have none of it. Let intemperate language be used; let men's zeal outrun their discretion; let enthusiasts go wild with passionate ambition, if it be done in a good cause, in the cause of the people, but give us none of that slavish conservatism, that mental torpor, that is content to eat the crumbs that fall from the table of the rich oligarchy of America, when the suffering poor are perishing because of the vast accumulations of ill-gotten wealth in a few hands.

The workingmen's party is the coming party. In the next Presidential election, if it does not elect its own national ticket, it will, at least, dictate terms to the other parties. The other parties submitting to the rule of wealth, and are becoming hopelessly corrupt; the country is ready for the workingmen's party, the people are with it, and it is certain of ultimate success. May God speed the right.

### THE MAIN QUESTION.

The San Francisco Call has been interviewing Hon. J. K. Luttrell, who has just returned from a special trip to Washington. That portion referring to the President's ideas regarding the Chinese will be read with interest. We copy:

One part of Mr. Luttrell's mission was to see the President on the Chinese question. All the Pacific Coast Representatives have talked to the Executive on this matter; but none of them lately as Mr. Luttrell. Mr. Luttrell is of the opinion that, in his next message, Mr. Hayes will make it plain that he is in earnest in his desire to give relief to the people of this coast from the Mongolian curse. "I am not at liberty," said Mr. Luttrell, "to tell you all that passed between the President and myself on the subject, but if he means what he says, and I believe he does—for I have found him a man whose word may be relied on—he is strongly in favor of at least a modification of the treaty. He has lost no opportunity of advising himself on the subject, and I need hardly say that the Senators and Representatives from this coast have been only too glad to give him all the information at their disposal. Our position on the question is beginning to be appreciated in the East. The sentiment in different States has veered round in our favor. Even during my present visit such members of Congress as spoke to me on the subject sympathized with the position in which we are placed on this coast, and my opinion is that next session we shall accomplish all the legislation necessary on this matter."

The Eureka Leader, of Monday evening, says:  
We enjoyed a most pleasant visit with the Hon. J. H. Kinkead this afternoon. The gentleman is a candidate for gubernatorial honors, and promises to become a most formidable competitor in the race. Should he be so fortunate as to be selected as the standard-bearer of the Republicans in Nevada, he will reflect credit on the party and render the wisdom of their choice apparent. Mr. Kinkead is a gentleman of culture and eminent social qualities; and we shall be pleased to meet him again.

CHAS. KNUST,

DEALER IN

**CIGARS, TOBACCO AND SMOKERS' ARTICLES.**

**GEO. SCHAEFER.**

THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those of the Comstock.

NEWS OF THE MORNING.

The Austrians have captured the Bosnian capital after hard fighting.

The Potter tread-mill still continues. E. A. Burk was the latest victim.

The man-of-war Wyoming is anchored about five miles northeast of Cape Henry.

W. Haddock of Missouri, owner of the horse Edwin Forrest, sold him Tuesday for \$16,000.

Montague, the actor who died in San Francisco recently, was buried in New York yesterday.

The Bodie mine made the fourth billion shipment on Monday. Total for the month, \$400,000.

Her Majesty's ship Bullfinch is due from Port Royal, Jamaica. Most of her crew are sick with the yellow fever.

General Butler spoke two hours to 7,000 people in New Haven, Conn., Tuesday night on the currency question.

It is denied authoritatively that the King of Holland contemplates marrying his niece, the Princess Marie of Saxo-Weimer Eisenach.

The Russian General Stoletoff has organized 75,000 Bulgarian volunteers, to whom the Czar has furnished arms and officers.

Patrick S. Gilmore, of Gilmore's Band, has sent a dispatch from Berlin denying the truth of the rumor that the band was in trouble.

The yellow fever continues to spread and New York is the last city to be attacked. The most distressing news comes from the afflicted cities.

General J. A. Garfield was nominated for Congress by acclamation by the Republicans of the Nineteenth Congressional District of Ohio Tuesday.

Fowler the American who undertook to walk on water from Boulogne to Folkestone in boots like canoes, failed after accomplishing eleven miles.

John A. Leete, the New Orleans journalist driven crazy by the excitement of being a witness before the Potter Committee, has been sent to the Bloomingdale Asylum.

A Pera correspondent says the Porte has received an official telegram stating that the Russians had summoned the Lazis to immediately evacuate Batoum, but that the Lazis refused.

George Thistleton was arrested on Monday on a bench warrant from the County Court of Los Angeles on three charges of libel. He was released after filing bonds of \$3,000 in the City Criminal Court.

A Yuma (Arizona) dispatch of Tuesday says: Captain L. Polans, Ordnance Officer of the United States Army, recently stationed here, died suddenly at 6:30 yesterday evening.

Count Andressy yesterday explained to the Council of Ministers the state of negotiations for a convention with Turkey, and showed that they are in a very satisfactory condition.

Dennis Kearney spoke to a large crowd of probably 4,000 or 5,000 workmen in Market square, Chicago, Tuesday night, touching on the Chinese question as it relates to Chicago, and on general labor topics.

A Muscatine (Iowa) dispatch says: The most violent storm known in this region for many years raged here Tuesday night. The lowlands were flooded and considerable property destroyed. No lives were lost.

A Vienna dispatch says Bismarck has given it to be distinctly understood that any attempt to shirk the obligations taken by the contracting powers of the Treaty of Berlin would be immediately followed by such measures as circumstances may require.

Peter Freeman, a stowaway on the bark C. W. N. Donken, from Bull river, S. C., was arrested yesterday, charged on his own admission with murdering a constable who attempted to arrest him. He was remanded to await information from the United States.

THE CHINESE QUESTION.

The New England press displays a remarkable ignorance in discussing the Chinese question. It is represented that the people of the Pacific slope object to the voluntary immigration to the Mongolians. That is not so. The objection is made to the importation of Chinamen of the low grade called coolies. There is quite a distinction between immigration and importation. We would place no barrier in the way of the voluntary immigration of any nationality to our shores. Immigrants come here to become citizens, and to assimilate themselves to our laws and customs. It is not so with the coolies imported from China by the six great companies of San Francisco. They are brought here under contracts which are contrary to the laws of morality. They are, in fact, slaves for a term of years after their arrival. Only young men are imported. There are no wives nor families. Every coolie comes here with a determination to return home again as soon as he has accumulated a few hundred dollars. The coolies live by themselves in barracks, have laws of their own, and cling to their idolatrous religion. Shiploads of prostitutes are brought over "in the interest of morality," and these poor creatures are sold like dogs in the Chinese quarters.

To say that opposition to this sort of thing is anti American and unchristian is absurd. We are glad that President Hayes has taken the pains to fully inform himself on this subject. He is fully determined to demand of the Chinese Embassy, now en route for Washington, a modification of the Burlingame treaty. Congressman Luttrell of California, who is as much opposed to the Chinese as Kernsey, says he is fully satisfied with the President's position. He says Hayes is "perfectly alive to the great evils resulting to the country from the influx of Chinese. When I go back to California if I could tell the people exactly what the President has said to me on this subject it would send a thrill through the whole Pacific slope. We are perfectly safe in trusting to the President to settle this question. He will perfectly satisfy us."

When the Chinese Embassy reach Washington the President will give his reasons for demanding the abrogation of the Burlingame treaty, and then an opportunity will be afforded the New England press to discuss the question on its merits. There is no opposition from any source to voluntary immigration. The whole fight is against the slave system established by Koopmanschoep, and more elaborately carried out by the Six Great Chinese Companies.

BUTLER TALKS.

A New York dispatch of the 20th tells as follows of some Butler brinks: "General Butler addressed a meeting of several hundred workmen here yesterday afternoon. He said there had never been a fair division in this country, or within the last generation, between capital and enterprise, nor between enterprise and labor, for the reason that most of the money invested in enterprise was borrowed capital and must pay large interest; and then when that interest must be got again, it must be got out of labor. The whole legislation of this country for the past 16 years has been in favor of money and the men of money. Let all property be taxed just once, and no more; then the taxes would grow less. He suggested as a remedy for the over production caused by the extensive use of machinery, cutting down the hours of labor to one hour a day, if necessary. Shun any man who speaks of the destruction of property, for the destruction of property is the destruction of so much labor. Don't send any man to Congress who shall vote that the man with capital, doing nothing for the good of his kind, shall have a better opportunity in society than the man who works eight or ten hours a day. Elect the men only who would work for the workman."

Or General Lafayette's personal appearance an old newspaper gives this description: "General Lafayette was one of the finest looking men in the army, notwithstanding his deep red hair, which then, as now, was rather in disrepute. His forehead was fine, though receding; his eye clear and hazel his mouth and chin delicately formed, and exhibited beauty rather than strength. His mien was noble, his manners frank and amiable, and his movements light and graceful. He wore his hair plain, and never complied so far with the fashions of his time as to powder."

THE NATIONALS.

It is with great reluctance that the New York dailies chronicle the progress of the National Greenback party. They give the views occasionally if the old party leaders, which are certain to be prejudiced and publish letters from correspondents who write as though instructed to belittle the movement. The new party is assuming such proportions, however, that this plan of falsehood and ridicule bids fair to be abandoned. It has dawned upon the New York Sun that the truth had better be told, and so we find the following interesting editorial in a late issue of that paper.

"We learn from impartial sources of information that the National Greenback Labor movement is likely to assume such dimensions in the Twenty-ninth Congressional District of this State as to render the result of the election in that district very doubtful. The district is composed of the counties of Cheyenne, Blount, and Allegheny, in which Elmira, Corning, Bath, Hornellsville and some other populous towns are situated, where the movement is exceptionally strong. The outside faction claims that it will elect the member of Congress in a district where the Republicans have been accustomed to get from 3,000 to 4,000 majority."

We have information of like tenor from the Twenty-fifth district which consists of Onondaga and Cortland, a district where the Republicans gave Frank Hiscok, now of the Potter committee, 4,600 majority in 1876. It is asserted that Syracuse and some other large towns in the district are full of Greenbackers and Labor Reformers.

We are told that the Thirtieth district, made up of Monroe and Orleans, and whose chief city is Rochester, is in the same condition.

Intelligence of a similar character reaches us from other interior Congressional districts, especially the Erie district and the Oswego district. It is also said that the Montgomery district and the Otsego district will be disturbed to some extent by the controversies between Mr. George Clark and his tenants, of which the Nationals and Labor Reformers are preparing to take advantage.

The Sun confines its comments to the Republican districts, principally. In the Albany and Buffalo districts the Democrats are in a fair way to lose their power. It is probable that the loss to the Republicans by the election of Nationals outright in districts now held by them, will be counterbalanced by the election of Republicans in districts where the Nationals hold the balance of power and draw their main strength from the Democratic party. This will keep the relative strength of the old parties about the same, and the members elected by the Nationals will go to make up the balance of power of the new party in the next House.

MONEY CONFERENCE.

Following are the propositions submitted to the Monetary Conference now in session in Paris, by the United States delegates, and now under discussion:

First—It is the opinion of this assembly that it is not desirable that silver be excluded from free coinage in Europe and the United States. On the contrary, this assembly believes it desirable that the unrestricted coinage of silver and its use as money as unlimited legal tender should be retained where they may expand as far as practicable and be restored where they have ceased to exist.

Second—The use of both gold and silver as unlimited legal tender money may be safely adopted, first, by equalizing them at a relation fixed by international agreement, and second, by granting to each metal at the relation fixed equal terms of coinage, making no discrimination between them.

The Republican leaders in Maine are very much worried over the situation. They admit that they cannot carry the State only by hard fighting and thorough organization. The importance of this admission can be judged when it is called to mind that the Republican majority for a number of years has exceeded ten thousand. If there is good foundation for the belief that the Democrats will finally abandon the field to the Nationals, the prospect is indeed dubious for the Republicans. The new party has already polled twenty thousand votes, most of them former Republicans. Since the opening of the present canvass at least fifteen thousand Republicans have been converted to the Greenback faith. With half the Democratic vote the Nationals can sweep the field. We venture to say that Jim Blaine is sitting on the anxious seat.

California salmon now flourish in the Rhine.

It is generally believed that the Bonanza firm intend to take in the entire north end of the Comstock, and that the rise is the result of the fact getting into the possession of heavy operators in San Francisco, who propose to make them pay heavily for the property. It is claimed that secret drift and diamond drill holes have been run from the Utah and Mexican into the Union Consolidated and Sierra Nevada ground, and that the location of the Bonanzas in that section was known months ago to the Bonanza people, and that they have been heavy buyers. It is pretty certain that they are also after the Wallis & Fargo, and other ground in that vicinity.

MART THOMAS, at the request of many friends, has hoisted his colors and will run for the office of Justice of the Peace of Belmont. Mart Thomas is a gentleman of sound judgment and undoubted integrity; he is an old resident of the town, a thorough business man, and is all there when solid men are needed to the fore. If Mart is so fortunate as to secure the nomination at the Republican Convention and be elected J. P. he will undoubtedly discharge the duties of the office in an impartial manner. We indorse all that the Courier says of Mr. Thomas, and his Reno friends hope he will be successful in his aspirations.

The latest bank failure is that of the First National Bank of Quincy, Illinois. The note holders lose nothing, and it is claimed that the depositors will be paid in full. It is noteworthy that the principal losers by these National Bank failures are the stockholders. This is just as it should be. The National Bank system gives note holders and depositors better protection than any bank system yet devised in this country.

The Courier says the population of Belmont is slowly but surely increasing. During the past few days several persons have arrived here with the intention of making the place their future home. It will not be long before more men will find employment in the mines, and the starting up of one of the mills will induce chloriders and prospectors to go to work in earnest.

The Mayor of Memphis telegraphed to Boston: "We are sadly afflicted and unable to supply the wants of our poor." A reply was made authorizing Memphis to draw on the Mayor of Boston for \$1500. A citizen's meeting has been called to give more assistance.

The gross earnings of the Central Pacific Railroad for July and since January 1st compare as follows:

	July.	Seven months.
1878.....	\$1,510,000	\$9,400,400
1877.....	1,392,000	9,230,600

There is no evidence of hard times in that statement.

Indians Monday night stole the stage stock from Pine Buttes and Spring Hill stations, a few miles north of Pleasant Valley, Idaho, and eight head from near Camas creek, thirty miles south of Pleasant Valley.

Strong pressure is being brought to bear on the President for the removal of Governor Axtell of New Mexico, on account of his maladministration of affairs. General True of Iowa is being urged for the place by his friends.

The Richmond shuts down September 1st for an overhauling and repairing of the machinery and furnaces. The works at that time will have been in complete operation for one year.

It is rumored that first-class hoisting works are to be erected at the North Consolidated Virginia shaft for use in working the Union Consolidated mine.

HAYES occupies a position probably never before accorded to any President for the first two years of his administration. He is acknowledged by all parties to be good and honest and utterly incapable of a corrupt act or word. The people have confidence in his integrity to such a degree, that even the Democrats in their platform do not attempt to make any charges whatever against him or his administration.—Dayton Journal.

The Elko Independent, acknowledging a ticket to our Fair, says: "It is confidently expected that the approaching Fair will eclipse all former exhibitions of the kind in this State, and if we can raise a little surplus revenue we shall be there."

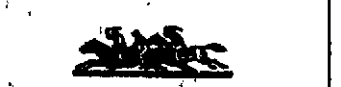

THE ORACLE.

DICKENS—In Reno, August 21st, to the wife of Wm. Dickens, a son.

NEVADA STATE FAIR.

1878! 1878!

FIFTH ANNUAL FAIR

OF THE NEVADA STATE

AGRICULTURAL,

MINING AND

THOS. PASTER, the man who assaulted old man O'Hara in front of the International hotel, yesterday afternoon, was sentenced by Judge Richardson to pay a fine of \$25 or go to jail twelve days. He preferred the latter.

DR. M. HOLMES, of Virginia, has been here for a couple of days, and is, we are sorry to learn, quite under the weather, with inflammation of the kidneys. Hope to soon report him all right.

ALL members of the Chebra Brith Sholem are particularly requested to attend the regular meeting on next Sunday to make arrangements to properly observe the coming holidays.

R. P. CHAPIN, who has been confined to his room for the past week with a swollen knee, is reported by Dr. Bergman as a convalescent.

ONLY two prisoners in the county jail—Emmett Jones for robbery and Au Choney for murder.

THEY are building a substantial brick wall around the gas house. No more risks of fire if they can help it.

## M. P. Powning Endorsed by the Workmen.

The Workmen's Union held another meeting last night, and after making preparations for a vigorous and determined fight to carry the county at the coming election, passed a resolution to the effect that if Mr. C. C. Powning receives the Republican nomination for the office of Lieutenant Governor, the Union would by all honorable means, support him at the polls, as they believed him a staunch friend of all workmen, and would aid them in their earnest endeavors to earn an honest livelihood. A committee was appointed to wait upon him and inform him of the Club's endorsement, but Mr. Powning had taken the 9 o'clock train for San Francisco, and they were too late to see him.

## Robber Arrested.

George Avery arrested a young boy night before last, accused of having robbed the Lake View house on Tuesday of a gold watch and \$18 in coin. George found the watch and \$5.50 on the boy. He is now in jail, and will have his preliminary examination to day.

## J. &amp; K. Dollars.

The Jones & Kinkead Co yesterday received a box full of the dollars of our daddies, made at the Carson Mint out of bullion from the Jones & Kinkead mine. The eyes of our citizens lingered lovingly at the sight of Pyramid money.

## New Chinatown.

The new Chinatown will be built in the gardens below Jas. Chamber's. A better place would be somewhere outside of town limits, as the new quarters will be very objectionable to residents in that vicinity.

## Canty.

Constable Barlow says he knows where "Canty" is, and after obtaining a requisition, will go for and fetch him back to Reno. Even then, he thinks, it is a question if the fellow can be convicted.

DR. BERGMAN left by the overland train last night to attend to a miner, who had his leg broken in the Rye Patch Mine. The doctor will return to night.

H. B. MAXSON, surveyor, left last night for the Humboldt, to attend to some business.

It clouded up last night as if it meant to run opposition to the sprinkling cart.

JUDGE HAYDON has taken the Marshall-Golden Fleese case under advisement.

THE Workmen held another private meeting last night.

T. V. JULIAN arrived home from the Bay yesterday morning.

THE Pavilion Committee has paid D. H. Haskell for his lots.

THE hospital has fifteen patients.

## THE FLOOD ON THE AUSTIN ROAD.

As news comes in from the surrounding country, we learn that Friday's rainfall extended both north and south, and was of unexampled violence to a large extent of territory. In many of the canyons there were narrow escapes from loss of life, and a large amount of damage has been done to mountain roads. Mr. Causay informs us that his and Mr. Robinson's teams had just got out of the mouth of nine mile canyon and to the plain below on the Austin road, when the teams were overtaken by a flood. The teamsters barely succeeded in getting the twenty four mules that comprised the outfit to high ground, when the torrent reached the valley. The men describe the plain as one great lake, and say that oceans of water were emptied upon it. Fortunately for the owners the wagons were loaded with charcoal, which kept them anchored down, and no damage resulted only from delay.—*Eureka Leader*, 19th.

THE Eureka *Sentinel* says of a prominent candidate for Governor:

Governor Kinkead is a very affable gentleman, and makes a splendid impression wherever he goes. Indeed, we think there is more latent strength more outcome in him than any Republican candidate that has yet been named. He is the sort of a man who grows with a canvass. It was quietly whispered, in a confidential way, for some time that if Kinkead should receive the Republican nomination, certain influences would be set to work to keep Governor Bradley off the track. Be that as it may Governor Kinkead is to be regarded as among the most favorable of the candidates thus far brought forward by the opposition.

THE horns of tame cattle are generally shorter than those of wild ones, because these appendages being obviously intended for weapons of offense, their development naturally followed the ratio of their necessity, and decreased in proportion to their domestication.
